

Allogene Therapeutics Expands Headquarters to Support Company Growth and Pipeline Innovation

Dec 15, 2021 at 8:30 AM EST

SOUTH SAN FRANCISCO, Calif., Dec. 15, 2021 (GLOBE NEWSWIRE) -- Allogene Therapeutics, Inc. (Nasdaq: ALLO), a clinical-stage biotechnology company pioneering the development of allogeneic CAR T (AlloCAR T™) therapies for cancer, today announced that it entered into a lease agreement to expand its headquarters in South San Francisco, California. The lease is expected to commence on April 1, 2022, and the additional 47,566 square feet of office and laboratory space will support the growth of its research platform and correlative clinical development activities.

"Our team, our research capabilities, and our drive for innovation continue to grow," said David Chang, M.D., Ph.D., President, Chief Executive Officer and Co-Founder of Allogene. "As we look into 2022 and beyond, this additional space will allow us to advance our broad pipeline of AlloCAR T therapies aimed at expanding the reach of cell therapy to more patients with hematologic cancers and solid tumors."

With this lease the company will occupy over 100,000 square feet at its headquarters in South San Francisco. In addition, Allogene has built Cell Forge 1, a state-of-the-art cell therapy manufacturing facility in Newark, CA.

Allogene was represented by CBRE Inc. in this transaction.

About Allogene Therapeutics

Allogene Therapeutics, with headquarters in South San Francisco, is a clinical-stage biotechnology company pioneering the development of allogeneic chimeric antigen receptor T cell (AlloCAR T™) therapies for cancer. Led by a management team with significant experience in cell therapy, Allogene is developing a pipeline of "off-the-shelf" CAR T cell therapy candidates with the goal of delivering readily available cell therapy on-demand, more reliably, and at greater scale to more patients. Cautionary Note on Forward-Looking Statements for Allogene

This press release contains forward-looking statements for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The press release may, in some cases, use terms such as "predicts," "believes," "potential," "proposed," "continue," "estimates," "anticipates," "expects," "plans," "intends," "may," "could," "might," "will," "should" or other words that convey uncertainty of future events or outcomes to identify these forward-looking statements. Forward-looking statements include statements regarding intentions, beliefs, projections, outlook, analyses or current expectations concerning, among other things: the ability to progress the ALPHA2 trial of ALLO-501A and proceed to the Phase 2 portion of the trial; the ability to resolve the current clinical hold on the Company's trials; the ability to manufacture AlloCAR T therapy; the ability to develop allogeneic CAR T therapies for cancer and the potential benefits of AlloCAR T therapy. Various factors may cause differences between Allogene's expectations and actual results as discussed in greater detail in Allogene's filings with the SEC, including without limitation in its Form 10-Q for the quarter ended September 30, 2021. Any forward-looking statements that are made in this press release speak only as of the date of this press release. Allogene assumes no obligation to update the forward-looking statements whether as a result of new information, future events or otherwise, after the date of this press release.

AlloCAR T™ is a trademark of Allogene Therapeutics, Inc.
